

# DOSANJH USA

## CAPABILITIES STATEMENT

Dosanjh USA INC. is a US Veteran owned business specializing in Information Technology services. We are leaders in mapping business use case requirements with technology solutions while ensuring operational excellence. Our approach includes a services methodology, solution framework and toolsets that meet the clients objectives.

## Core Competencies

### Assessment and Implementation Services

- Cybersecurity (Post-Quantum Cryptography, User, Application, Data, Networks)
- Governance, Risk and Compliance (Privacy, Regulations)
- Artificial Intelligence (AI Agents, GenAI, Machine Learning, Agentic AI, LLMs)
- Data Science (Aggregation, Normalization, Enrichment)
- Customer Success (Professional Services, Training and Support)

### Platform Services

- Cloud Computing & Cloud Skills Training (AWS, Azure, GCP)
- Networking (Data Center, Segmentation, Software-Defined Networks)
- Software Development (Cloud Native, Software-as-a-Service)
- Post-Quantum Cryptography (Encryption Discovery and Analysis)

### Digital Transformation Services

- Content, Information & Digital Media (Creative, Strategy and Design)
- Streaming Video (Encoding, Formats, Delivery and Playback)

## Differentiators

DUSA provides comprehensive services that protect healthcare revenue cycles from emerging quantum computing threats and sophisticated cyber vulnerabilities - delivering compliant, resilient claims processing, accelerated revenue realization, and enduring protection for patient and financial data.

## Past Performance

Rocket Mortgage engaged us for protecting 75 subsidiary companies that utilized Salesforce. Protection for over \$2 Billion worth of loan processing each day. Three & half year engagement, seven figure contract. US Air Force testing for Post-Quantum Cryptography. Southwest Airlines for Digital Signage and Software-Defined Network. LinkedIn for application segmentation for lift and shape deployment to the Microsoft Azure Cloud.
